## Discovery Channel's MythBusters coming to Taber

In February 2010, the Discovery Channel's MythBusters will be performing in Taber.

Grant Imahara and Tory Belleci will be coming to Alberta as part of Science Alberta Foundation's Science Happens Here program. There will be shows in Lethbridge and Taber, and tickets go on sale Monday, Nov. 9, 2009 for the Taber show, and are \$10 each.

Each year, Science Alberta Foundation organizes the Science Happens Here program in an Alberta community. The program highlights the science happening in everyday life, in

industry and in business. It stimulates curiosity about science and showcases science, math and technology careers in the region.

In Taber, the program will feature interactive science exhibits, and contests for schools and residents. For instance, each week from mid-November until January, residents can win MythBusters tickets by participating in the Science Scavenger Hunt contest. Taber businesses are invited to participate in the program by submitting a science fact for the Science Scavenger Hunt.

"We are excited to team up with local

partners, businesses and trades in the Taber area," said Dr. Arlene Ponting, CEO, Science Alberta Foundation.

The MythBusters Taber show will be held at 9:30 a.m. on Sunday, Feb. 7, 2010, at W.R. Myers high school.

Science Alberta Foundation is pleased to work with presenting supporter Suncor Energy Foundation, and community partners the University of Lethbridge and 1st Choice Savings and Credit Union.
